

## Had To Quit Work Gave Up Hope of Recovery, But Doan's Restored His Health. Has Been Well Since.

J. B. Raglan, carpenter, 210 W. 60th St., Chicago, Ill., says: "My back gave out completely and I had to quit work. I could hardly endure the pain in my back and nights I tossed and turned, unable to sleep. Often in the morning my back was as stiff as a board, so that I couldn't stoop to dress myself. When I did manage to bend over, everything before me turned black. My head seemed to be whirling and sometimes I was so dizzy I had to grasp something to keep from falling. "The kidney secretions were irregular in passage, getting me up at night and the passages burned cruelly. I lost my appetite, was weak and listless and went down twenty-five pounds in weight. When I had almost given up hope, Doan's Kidney Pills cured me. Soon after, I passed an examination for life insurance and I'm glad to say my cure has lasted."

Full of Emotion.  
Little Elsie had been told by her mother that a dog wags his tail to show that he is pleased, while a cat switches his tail when he is angry. A few days later Elsie discovered her favorite pussy purring contentedly before the open fire while her tail swayed luxuriously back and forth over the rug behind her. The little girl, her eyes wide with wonder, ran to her mother.

"Oh, mamma," she cried, "I don't see how Silver Belle can be so glad at one end and mad at the other at the same time!"

## BUY LIBERTY BONDS

### Democracy and Liberty Undergoing the Supreme Test.

Americans Face Great Duties in Providing Food Products and Aiding Our Soldiers and Our Allies in War.

(By HAPSBURG LIEBE of the Vigilantes.)

Democracy and Liberty are not always synonymous, perhaps, but they mean the same to us now, certainly. A military autocracy, after more than forty years of thorough and cunning preparation, a great part of it by means of weapons of our own invention, has thrust our Democracy and our Liberty into the crucible to test it out, to see whether it would hold good. They did not believe it would hold good, those Prussian militarists; they do not believe it yet. We believe it will, but our belief has been made up heretofore largely of egotism and blindness.

Democracy and Liberty, the world's with our own, is now undergoing the supreme test. Of course there is a drought, and it is coming to the top rapidly. There is inefficiency, mismanagement, grave mistakes that even our national leaders have made; there has been some graft, no doubt; there has been some playing of politics; there has been profiteering, but all this is only the dross floating to the top of the crucible. We were never a military nation, you know. The biggest of our mistakes, I think, was in our shipbuilding program, but we were never a shipbuilding nation, either. However, this dross is all being cleared away.

Fully 60 per cent of the winning of this war depends upon us here at home. We have three great duties upon us now as we never had them upon us before—those of us who can grow food products must grow more than ever; we must all aid in the saving of foods, and especially wheat, meats, and sugar; and all of us who can, though it may necessitate some sacrifice, must buy these new Liberty bonds. Properly carried through, these three great duties will prove the overbalancing power in the winning of the war, beyond a doubt. The growing of great crops and the conservation of food, and the buying of Liberty bonds, quickly mean enough food for our soldiers and our allies, and enough ships to carry it. If we fail in this the die of destiny is quite likely to fall with its skull-and-crossbones upward for us; if we do not fail, then Democracy and Liberty will come out of the crucible covered with glory. The result is inevitable.

### WHO FIGHTS AT HOME? SAY II

(By ROLAND G. USHER, of the Vigilantes.)

We cannot fight a war and still do business as usual. This means you and not other people. You might as well come to it first as last. The war is unusual and we shall have to have unusual business to deal with it.

The gist of it is this: The nation has just so many hands and just so much energy—just so much raw material and labor. There are only 24 hours in the day and 365 days in the year. We can make only so many things in a given time with a given supply of time and material. If we make some things we cannot make others. If we put sugar into candy to stuff little women we cannot have jam to feed the soldiers. If we make autos for pleasure only, we cannot use that material, labor and energy for tanks and airplanes. If we burn the gasoline on Sundays, the boys in France cannot use it in battle.

The whole truth is that we must stop business as usual. And this is where you come in—you must stop spending as usual. Do it now. Put your money into gunpowder and not face powder; into tanks and not limousines; into food for the trenches instead of spending it in hotels and restaurants. But you cannot buy directly for the army. The government must do it. Give the government the money and BUY A LIBERTY BOND.

### Your Bond Buys Explosives.

Many farmers here in America have used giant powder or dynamite in blasting out stumps and rocks and in preparing a hillside for an orchard. Explosives are dangerous to handle and we all duck our heads and run when the charge is to be set off. Over in France today our sons are having the stuff hurled at them every minute of the day and night with an occasional volley of gas shells that choke and strangle to death and they don't dare run. With the boys looking death in the face over there, we can do no more than look the issue squarely in the face here at home and buy Liberty Bonds and see that they are provided with ammunition to return the Kaiser just as good as he is sending across to our trenches.

### We Are at War! Buy Bonds!

Do many farmers, far removed from the war, realize the seriousness of our present predicament? The very fact that the farmer is not immediately in touch with the war makes the danger more imminent. Russia is made up of farming population, probably three-fourths of which knew very little of what the war ever there meant. As a result the army was not provisioned and money not kept in circulation and the military machine collapsed. However our army by buying bonds

### Looking Into the Future.

An eminent engineer has predicted that in time to come the rivers of the United States will no longer flow as they do today. Each important stream will be merely a series of sluggish lakes, with electric power stations in between. All the little streams will be wiped out, and their waters combined into the great ones that are to supply the heat, light and power of the future.

The best revenge is to reform our crimes.

## HAVE YOU A SWEETHEART?

Son or Brother in training camps in the American Army or Navy? If so, mail him a package of ALLEN'S FOOT-EASE, the antipruritic powder to be shaken into the foot-bath. The American, British and French troops use Allen's Foot-Ease, because it takes the friction from the shoe and freshens the feet. It is the greatest comforter for tired, aching, tender, swollen feet, and gives relief to corns and bunions. The Plattburgh Camp Manual advises men in training to shake Foot-Ease in their shoes each morning. Ask your dealer to-day for a 25c. box of Allen's Foot-Ease, and for a 25c. stamp he will mail it for you. What remembrance could be so acceptable?

Freemont, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—headaches, nervousness, and was in a general run-down condition, so it was hard for me to do my work. ### Gets Big Wolf.

J. W. Fountain, a rancher of the McKenzie valley, living near Waltherville, Ore., recently brought to Eugene the pelt of a huge black wolf trapped by him.

He caught it in two traps, set close to each other, and the animal had both broken and would have escaped soon had Mr. Fountain not arrived when he did. There are several of these animals in that vicinity, and the ranchers have been losing cattle and sheep as a result of their depredations.

This wolf was one of the largest ever seen in this country, measuring over eight feet from tip to tip.

All those who want to be contrary say no!"

### How to Live Cheaply.

There is at least one family in England which can snap its fingers at Lord Rhonda and whose members are not to be found in food queues. The head of the family recently wrote to a London newspaper that himself, wife and family of four have lived for 14 weeks wholly on raw vegetable salads made of grated turnips, carrots, parsnips, beets, cabbages, etc., together with fruit salads, toast and porridge, and says they are all much stronger and healthier as a result. They use neither tea nor coffee and grow their own vegetables, and so may be regarded as the most independent family in England.—New York World.
